COMPANY PROFILE

ENVIRON CONTROL SYSTEMS
COMPLETE **HVAC** SOLUTIONS

Welcome!

Welcome to **Environ Control Systems (ECS)** — delivering innovative, energy-efficient, and reliable HVAC solutions with excellence, precision, and professionalism.

Engineering Comfort. Delivering Excellence.

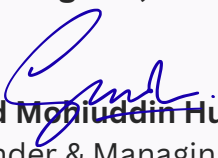

Dear Valued Clients & Business Partners,

I am **Syed Mohiuddin Hussain Bukhari**, Founder & Managing Director of **Environ Control Systems**. At ECS, we are committed to delivering innovative, energy-efficient, and reliable **HVAC** solutions tailored to meet the unique requirements of every project.

With a strong focus on quality, professionalism, and customer satisfaction, we strive to provide advanced Heating, Ventilation, and Air-Conditioning systems that ensure comfort, performance, and long-term value. Our dedicated team works with passion and precision to deliver excellence in every installation and service we undertake.

We look forward to building lasting relationships and creating successful projects together with trust, integrity, and commitment.

Warm regards,

Syed Mohiuddin Hussain Bukhari
Founder & Managing Director
Environ Control Systems

A Brief Story About The Company

www.ecsplanet.com

ABOUT US

About our Company

Established in 2015, **Environ Control Systems (ECS)** is a trusted HVAC engineering and turnkey contracting company specializing in Heating, Ventilation & Air-Conditioning solutions for commercial, industrial, residential, and institutional projects.

With a commitment to quality, innovation, and customer satisfaction, ECS delivers complete HVAC services including design, supply, installation, testing, commissioning, maintenance, and retrofit solutions.

Backed by experienced engineers and skilled professionals, we focus on providing energy-efficient, reliable, and cost-effective systems tailored to each client's requirements.

Over the years, ECS has successfully executed prestigious projects across hotels, hospitals, offices, industries, metro rail infrastructure, and commercial developments — building a reputation for excellence, professionalism, and timely delivery.

Engineering Comfort. Delivering Excellence.

VISION

To be a leading HVAC solutions provider recognized for engineering excellence, innovative technology, energy-efficient systems, and exceptional customer satisfaction across commercial, industrial, and residential sectors.

Building Smarter, Sustainable & Comfortable Environments for the Future.

MISSION

To deliver innovative, reliable, and energy-efficient HVAC solutions with the highest standards of quality, professionalism, and customer satisfaction.

01

Deliver High-Quality HVAC Solutions

Providing advanced and dependable HVAC systems tailored to every project requirement.

02

Ensure Customer Satisfaction

Building long-term relationships through trusted service, support, and timely execution.

03

Promote Energy-Efficient Systems

Implementing smart HVAC technologies that reduce energy consumption and operating costs.

04

Execute Projects with Excellence & Integrity

Maintaining professionalism, transparency, and precision in every stage of execution.

KEY FACTORS

Environ Control Systems has over 10 years of experience in delivering innovative and reliable HVAC solutions for commercial, industrial, residential, and infrastructure projects. With successful execution of prestigious projects and a commitment to quality, efficiency, and customer satisfaction, ECS provides complete turnkey HVAC services from design and installation to maintenance and support.

01

10+ Years of HVAC Excellence

Since 2015, Environ Control Systems has been delivering reliable, innovative, and energy-efficient HVAC solutions with a strong commitment to quality, engineering excellence, and customer satisfaction across diverse industries.

02

Prestigious Projects Successfully Executed

ECS has successfully completed HVAC projects for leading hotels, commercial complexes, industrial facilities, hospitals, metro rail infrastructure, and corporate buildings – earning trust through timely delivery and professional execution.

03

Complete End-to-End HVAC Solutions

From design and engineering to installation, testing, commissioning, and maintenance, ECS provides comprehensive turnkey HVAC solutions tailored to meet the unique requirements of every client and project.

SOLUTIONS

Environ Control Systems provides advanced and energy-efficient HVAC solutions tailored for commercial, industrial, residential, hospitality, healthcare, and infrastructure projects. Our expertise includes centralized air-conditioning systems, VRF/VRV systems, ventilation and exhaust systems, chilled water systems, air handling units, ducting, and complete turnkey HVAC execution with reliable maintenance and support services.

1. Centralized Air-Conditioning Systems

Create seamless digital experiences with custom website and mobile app development. We design responsive, user-friendly platforms that enhance functionality, engagement, and performance, helping businesses grow and connect with their audience efficiently.

2. VRF / VRV Systems

Advanced and flexible air-conditioning systems that provide precise climate control, reduced energy consumption, and smart operation for modern offices, villas, and commercial spaces.

3. Ventilation & Exhaust Systems

Professional fresh air, basement ventilation, and kitchen exhaust systems designed to improve indoor air quality, airflow management, and environmental safety standards.

4. Chilled Water Systems

Customized chilled water HVAC systems engineered for large-scale cooling applications, ensuring maximum operational efficiency, consistent performance, and low maintenance costs.

SOLUTIONS

Environ Control Systems provides advanced and energy-efficient HVAC solutions tailored for commercial, industrial, residential, hospitality, healthcare, and infrastructure projects. Our expertise includes centralized air-conditioning systems, VRF/VRV systems, ventilation and exhaust systems, chilled water systems, air handling units, ducting, and complete turnkey HVAC execution with reliable maintenance and support services.

5. Air Handling Units (AHU)

High-quality air handling and filtration systems developed to maintain clean air circulation, balanced airflow, humidity control, and occupant comfort.

6. Ducting & Insulation Works

Expertly fabricated ducting networks with premium insulation solutions that enhance airflow efficiency, reduce energy loss, and ensure long-term durability.

7. HVAC Turnkey Projects

Complete HVAC turnkey solutions including design, engineering, supply, installation, testing, commissioning, and project management tailored to client requirements.

8. Maintenance & Support Services

Comprehensive preventive maintenance, troubleshooting, and technical support services to ensure uninterrupted operation, system reliability, and extended equipment life.

SOME OF THE PRESTIGIOUS PROJECTS **EXECUTED**

Environ Control Systems has successfully executed prestigious HVAC, ventilation, chilled water, plumbing, and MEP projects for leading hotels, commercial complexes, hospitals, metro rail facilities, IT campuses, and industrial organizations across India. Our portfolio includes renowned clients such as ITC Kohinoor, Sheraton Hotels, Dell International, L&T Metro Rail Hyderabad, The Park Hotels, Virtusa Consulting Services, and Government Medical College Anantapur, delivering high-quality centralized air conditioning, ventilation, VRF, chilled water, and exhaust systems with complete ducting and insulation solutions.

1. Sheraton Hotels

SITC of Centralized Air Conditioning & Ventilation Systems, Cooling Towers, Pumps, Electric Hot Water Generators, AHUs, HRW Units, FCUs, Electrical Panels, Wet Type Scrubbers, Air Washers, and AHUs including GSS Ducting, Insulation, etc.

2. Polaris Consulting & Services Limited

SITC of Centralized Air Conditioning & Ventilation Systems, Cooling Towers, Pumps, Electric Hot Water Generator, AHUs, HRW Units, FCUs, Electrical Panels, Wet Type Scrubbers, Air Washers, and AHUs including GSS Ducting, Insulation, etc.

3. N.R.S.A. Department Of Space

SITC of Centralized Air Conditioning & Ventilation Systems, Cooling Towers, Pumps, AHUs, FCUs, Electrical Panels, including GSS Ducting, Insulation, and associated accessories.

4. ITC Kohinoor

SITC of Basement & Kitchen Exhaust Ventilation Systems, Electrical Panels, Wet Type Scrubbers, Air Washers, GSS Ducting, Insulation, and associated accessories.

SOME OF THE PRESTIGIOUS PROJECTS EXECUTED

Environ Control Systems has successfully executed prestigious HVAC, ventilation, chilled water, plumbing, and MEP projects for leading hotels, commercial complexes, hospitals, metro rail facilities, IT campuses, and industrial organizations across India. Our portfolio includes renowned clients such as ITC Kohinoor, Sheraton Hotels, Dell International, L&T Metro Rail Hyderabad, The Park Hotels, Virtusa Consulting Services, and Government Medical College Anantapur, delivering high-quality centralized air conditioning, ventilation, VRF, chilled water, and exhaust systems with complete ducting and insulation solutions.

5. Nirankari Bhavan

SITC of Centralized Air Conditioning & Ventilation Systems including Pumps, Electrical Panels, AHUs, FCUs, GSS Ducting, Insulation, and associated accessories, ensuring efficient cooling, ventilation, and reliable HVAC system performance for commercial and industrial applications.

6. Nagarjuna Fertilizers LTD

SITC of Centralized Air Conditioning & Ventilation Systems including Pumps, Electrical Panels, GSS Ducting, Insulation, and associated accessories for efficient cooling and ventilation solutions.

7. Dell International India LTD.

SITC of Centralized Air Conditioning & Ventilation Systems, Cooling Towers, Pumps, AHUs, FCUs, Electrical Panels, including GSS Ducting, Insulation, and associated accessories.

8. L&T Metro Rail Hyderabad LTD. (Panjagutta & Hi-Tech City Mall)

SITC of Basement & Kitchen Exhaust Ventilation Systems, SITC of Additional Plumbing Works and Retrofit Works of Chilled Water Systems, including GSS Ducting, Insulation, and associated accessories.

SOME OF THE PRESTIGIOUS PROJECTS **EXECUTED**

Environ Control Systems has successfully executed prestigious HVAC, ventilation, chilled water, plumbing, and MEP projects for leading hotels, commercial complexes, hospitals, metro rail facilities, IT campuses, and industrial organizations across India. Our portfolio includes renowned clients such as ITC Kohinoor, Sheraton Hotels, Dell International, L&T Metro Rail Hyderabad, The Park Hotels, Virtusa Consulting Services, and Government Medical College Anantapur, delivering high-quality centralized air conditioning, ventilation, VRF, chilled water, and exhaust systems with complete ducting and insulation solutions.

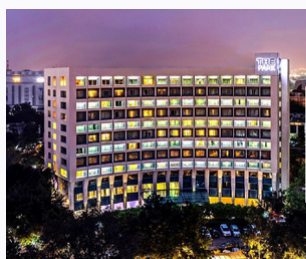

9. Kesineni Hotels PVT. LTD. Vijayawada

SITC of Ventilation and Kitchen Exhaust Ventilation Systems, ensuring effective air circulation, smoke extraction, and a safe, hygienic environment with complete ducting and associated accessories.

10. ITC Grand Kakatiya Hotel Hyderabad

SITC of Air Handling Units (AHUs) and Treated Fresh Air Units (TFA Units) for efficient air distribution, ventilation, and improved indoor air quality.

11. Appejay Surendra Park Hotels (The Park-Hyderabad)

Chilled Water System Retrofit Works including GSS Ducting for efficient cooling performance, improved airflow, and reliable HVAC system operation.

12. Appejay Surendra Park Hotels (The Park-Vizag)

SITC of Kitchen Exhaust Air Systems & Fresh Air Systems for effective ventilation, smoke extraction, and continuous fresh air circulation.

SOME OF THE PRESTIGIOUS PROJECTS **EXECUTED**

Environ Control Systems has successfully executed prestigious HVAC, ventilation, chilled water, plumbing, and MEP projects for leading hotels, commercial complexes, hospitals, metro rail facilities, IT campuses, and industrial organizations across India. Our portfolio includes renowned clients such as ITC Kohinoor, Sheraton Hotels, Dell International, L&T Metro Rail Hyderabad, The Park Hotels, Virtusa Consulting Services, and Government Medical College Anantapur, delivering high-quality centralized air conditioning, ventilation, VRF, chilled water, and exhaust systems with complete ducting and insulation solutions.

13. Appejay Surendra Park Hotels (The Park-Chennai)

SITC of Fan Coil Units (FCUs), Treated Fresh Air Units (TFA Units), and Ventilation Systems for efficient cooling, fresh air circulation, and improved indoor air quality.

14. Vijaya Nagar Institute Of Medical Science (VIMS) Bellary

SITC of 450 TR Chilled Water System for efficient cooling performance, reliable temperature control, and energy-efficient HVAC operation.

15. Government Medical College Anantapur

SITC of 360 TR Chilled Water System for efficient cooling, reliable performance, and energy-efficient HVAC operation.

16. L&T Metro Rail (Hyderabad) Ltd. - (Irrum Manzil) Next Galleria Mall

MEP Modification Works along with Civil & Interior Works for efficient space utilization, system integration, and enhanced project functionality.

SOME OF THE PRESTIGIOUS PROJECTS **EXECUTED**
